AMERICAN MEDICAL NEWS

Index

Volume 15 - 1972

The *American Medical News* (AMN) is a newspaper reporting on AMA activities and any news of importance to medicine. It seeks out and reports on significant events, trends, and personalities affecting medicine. Attempt is made to report accurately, concisely, and responsibly, giving all sides to every issue, serving the medical profession and others on, and insight into, the world in which they live and practice their professions.

This annual index covers most items in AMN, including the brief items under 'Medicine's Week,' 'Business Briefs,' and highlights of 'Washington's Week.' Such items as 'What to Write For,' 'This Week in JAMA,' and product information are not indexed. Names of persons quoted in news items, or about which stories are reported, appear in the regular subject index. Authors of letters appear after the subject index on pages 309-316. Citations give the date of issue and the page number.
